

ESG & Sustainable Finance 2.0

Focus: Financial Institutions

A training experience that connects you with your peers in the financial services industry, boosts your resume and keeps you on top of market trends.

1 in 2 investors want to see a company's progress on ESG¹.

Meanwhile, only **25%** of directors say their board understands ESG risks well².

To whom is it intended?

The ESG & Sustainable Finance 2.0 programme is perfect for **Financial Institutions' management and staff** wanting to develop a clear understanding of current and future sustainability challenges and opportunities.

What will set you apart?

By completing this course, you will:

- Sharpen your ESG skills with practical, real-life examples and have an active contribution to your company's sustainability journey.
- Get PwC curated knowledge of sustainable finance and ESG regulatory requirements for Financial Institutions.
- Learn about regional and local sustainability approaches, from key EU regulatory requirements such as the Taxonomy, CSRD and SFDR certain tools and frameworks that integrate ESG factors into the business model and strategy.
- Connect to your fellow sustainability professionals in the financial services industry.
- Understand sustainability holistically – how the different puzzle pieces connect to each other.

Programme benefits

- Get improved knowledge, competency and confidence in the key sustainability areas. You will learn and develop through critically reviewing industry good business practices, debating with tutors and fellow colleagues, or sharing experience.
- Get inspired and encouraged to apply the newly gained knowledge in your daily work.
- Join a learning community of key professionals and leaders from top organizations in the region and take advantage of this excellent networking and benchmarking opportunity.

While many companies are active in numerous areas of sustainability, coordination across the organisation and an overarching strategy are vital elements.

We will enable you to focus on the essentials, while organizing and funnelling down scattered ideas and confusing concepts.

Your learning process with us includes knowledge tests in order to strengthen the approached core ESG concepts. At the end of the programme, you will know what questions should be asked, where to find the answers and how to transform sustainability challenges into opportunities.

The training approach combines clear cut information provided by tutors with active participation, taking advantage of each participant's experience.

You will gather, besides the theoretical knowledge, a practical understanding of key ESG concepts, transforming the EU Taxonomy, CSRD and SFDR into bite-size information.

ESG & Sustainable Finance 2.0 is a complete sustainability training programme tailored to the financial market.

**We are always
up to date.
And so are you.**

The sustainability regulatory framework is constantly changing, both locally and regionally.

ESG & Sustainable Finance 2.0 is always providing the latest information available, making sure you have the complete picture.

Who will teach you?

The workshops are led by PwC professionals, trained on ESG topics and working on real sustainability projects, who also have excellent training skills and extensive experience in introducing Sustainability topics and their practical application. During the programme, you will receive study materials developed by PwC experts and full support from the tutors.
